December 2023

SUCCESSION FINANCIAL PLANNING
Advisory Services (PTY) Ltd
Licensed Financial Services Provider FSP 41158

FUND DETAILS

Fund Category	SA Multi Asset High Equity
Benchmark	CPI+5%
Risk Profile	Moderate Aggressive
Investment period	5 years or longer
Launch Date	01 August 2020
Fund Size	R 90 million
Platform	Glacier

FUND OBJECTIVE

The Real Income solution aims to provide investors with a level of income that is consistent with the associated risk of a long-term investment. The preservation of capital is extremely important to ensure continued income security. The solution will use strategies that increase overall downside protection while as the same seeking to share in upside returns. However, the benchmark of the portfolio translates to significant exposure to more risky strategies that could lead to some capital losses in the short term. The solution may also be exposed to Retail Investment Hedge Funds, a multi-strategy alternative fund, and a smoothed bonus fund. Smoothed bonus funds declare monthly bonuses in a way that helps reduce short-term volatility. Investors in this solution should have an investment horizon of five years or longer. The solution is not compliant with Regulation 28 of the Pension Funds Act, 1956.

ASSET ALLOCATION

Equity, 5.4%	International Cash, 0.8%
Property, 0.4%	International Property, 0.2%

The investor is liable for CGT on any transactions in the units of the underlying unit trust within the wrap funds. Compulsory investments are not subject to CGT. Performance is calculated using net returns (after fees) of the underlying unit trusts, and quoted excluding wrap fund fees. Performance quoted is pre-tax. Fund performance numbers shown are for a notional portfolio and do not reflect the actual performance of the client invested in the wrap fund due to timing differences of investments or disinvestments of the client. Benchmark returns for CPI are based on actual published returns and an estimated one month return for the month of the report date. ASISA Benchmark returns are the ASISA returns available as at the time of reporting.

MANAGER COMMENT

2023 was a year of market surprises, indicating that volatility will always be part of the investment journey and amid the highs and lows, there will always be gains and losses for investors, businesses, and economies. Some of the market conditions might continue into 2024 but the reality is that no one knows what's in store for the new year. Economists can make predictions of how they perceive the market to play out, however, unforeseen circumstances might arise to impact global economies and once again prove market predictors otherwise.

The year ended on a high note for global investors with the MSCI World Index ending the month at 4.91% and a year-to-date (YTD) positive of 23.79%, both in dollar terms. Since late October, investors became increasingly optimistic about the prospect of US rate cuts in 2024 and this led to a benchmark rise of 16%. Earlier in the year, tech stocks showed dominance with the Magnificent Seven recording an aggregate of 50% by late October, while the rest of the S&P 500 shares were down 2% in aggregate over the same period. The S&P 500 Index ended the month at 4.53% with a YTD figure of 26.26%. Even though emerging markets were held back by Chinese stocks, the MSCI Emerging Markets Index still ended in positive territory at 3.95% m/m and 10.27% YTD. The Dow Jones ended the month at 4.93% in dollar terms, the FTSE at 4.52% m/m in pound terms, the Euro Stoxx at 3.22% m/m in euro terms, and the Nikkei Index at 0.04% m/m in yen terms.

The SA stock market ended the year positively with the FTSE/JSE All Share Index at 2% and a YTD figure of 9.25%. SA Value stocks ended at 2.81% m/m and 2.79% YTD, while SA Growth stocks ended at 1.18% m/m and 14.45% YTD. In the derivatives market, Resources ended the month negatively at -1.31%, with Industrials and Financials positively at 0.49% and 2.31% respectively. Cash ended in positive territory with the STeFI Composite Index at 0.70% m/m and 8.06% YTD, both in rand terms. In the credit market, the All Bond Index ended at a positive 1.49% m/m in rand terms, with bonds of 1-3 years at 1.10% m/m, bonds of 3-7 years at 1.25% m/m, bonds of 7-12 years at 2.23% m/m and bonds of over 12 years at 1.13% m/m. In the currency market, the rand ended positively against the US dollar at 3.62% m/m (-6.96% YTD), positively against the euro at 2.35% m/m (-10.11% YTD), positively against the British pound at 2.90% m/m (-12.21% YTD), but negatively against the Japanese yen at -4.64% m/m (+6.85% YTD).

PORTFOLIO MANAGER

Paul Wilson
BSc (Hons) Actuarial Mathematics; CFA
Charterholder

Paul joined Sanlam in 2011 as an investment analyst before being appointed to his current position of Chief Investment Officer in 2013. As CIO, Paul heads up a substantial team of experienced investment professionals in Sanlam's Multi-Management team. As solutions architects, the team performs in-depth macro and manager research that informs the portfolio construction process, which is encompassed within a disciplined framework. Sanlam's multi manager investment team has an exceptional tactical asset allocation track record, giving them a distinct competitive edge.

In his previous capacity as head of research, Paul ensured that the quality of data was high and appropriate for the investment process. His responsibilities included due diligence at a manager level, developing new analysis methods, writing articles and doing research. In his role as portfolio manager, Paul was responsible for client portfolios and making trading and investment decisions.

Before joining Sanlam, Paul fulfilled the roles of head of asset manager research and an investment consultant at Jacques Malan Consultants & Actuaries. He also gained experience as a business analyst at Monocle Solutions and a Quantitative Analyst at RisCura Solutions in 2004.

Paul is a certified Chartered Financial Analyst (CFA) and also has a BSc (Honours) in Actuarial Mathematics from the University of Pretoria.
