MANAGER COMMENT

Global and local equity markets closed out the month and quarter in negative territory in September. Continuing concerns about rising inflation saw major central banks raising interest rates further despite concerns about growth, market volatility, and a global recession. Geopolitical risks (Russia's ongoing war in Ukraine and the increasing tension between Russia and much of Europe), Europe's energy crisis, and China's COVID-19 lockdowns added to the negative sentiment.

Global equity markets ended the month and quarter down. The MSCI World Index closed 9.3% down m/m in USD and 4.36 down m/m in ZAR. Announcements from the US Federal Open Market Committee and the August US Consumer Price Index data triggered the biggest market sell-off since 2020. The US S&P 500 declined by 9.22% m/m, its worst monthly performance since March 2020. The Dow Jones closed the month 8.76% lower with all the 30 stocks in the Dow in the red and more than 20 stocks losing at least 1%. The Nasdaq fell by 10.5% m/m. The US dollar continued to strengthen and is currently at a 20-year high against major currencies. European equities also closed the month with a negative return, with the FTSE 100, DAX, and CAC Index down, 5.88%, 5.61%, and 3.04%, respectively. The British pound depreciated to a 37-year low against the US dollar.

Lockdowns in several of China's large cities tightened COVID-19 control measures, and an embattled real estate sector weighed on Chinese markets and further dragged emerging markets lower for the month. Hong Kong's Hang Seng Index and the Shanghai Composite Index ended 13.7% and 5.6% down m/m. The MSCI Emerging Market Index returned 11.67% down m/m in USD and 6.86% down in ZAR.

The South African equity market followed international markets to end the month lower. Eskom implemented a record-long stretch of load-shedding for most of September and this weighed heavily on activity. The FTSE/JSE All Share Index closed 4.13% down m/m. The Resources sector was the only sector that ended the month in positive territory, driven higher by BHP Group, the largest company on the exchange (up 4.0% m/m), followed by Glencore (up 6.6%), Anglo American Platinum (up 7.5% m/m) and Gold Fields (up 6.6% m/m). The SA Listed Property index was one of the worst-performing indices, falling by 6.28% m/m, followed by the Industrial and Financials, which ended down 5.05% and 5.95% respectively. Prosus and Naspers dragged the Industrials lower ending the month down 10.9% and 6.7% respectively. The rand could not keep up with the strengthening US dollar and weakened by a further 5.16% m/m against the greenback. The rand further lost 2.66%, 1.15%, against the euro and pound. The SA Reserve Bank (SARB) hiked the interest rate by 75 basis points, taking the repo rate to 6.25%. SA bonds (ALBI) returned 2.11% down during the month and cash (StEF1) returned 0.46%.
